

PUBLIC NOTICE

The Goodyear Tire & Rubber Company has applied to the Tennessee Division of Air Pollution Control (TDAPC) for a [construction permit](#) for approval to increase the high dispersion silica coupling agent usage at their facility, located at 3260 Goodyear Blvd., Union City, Tennessee. The proposed project will result in an increase in potential emissions of volatile organic compounds. A significant increment consumption would be expected. The project is subject to review under the State rule for Prevention of Significant Deterioration of Air Quality (PSD), Paragraph 1200-3-9-.01(4) of the Tennessee Air Pollution Control Regulations, which requires a public notification and thirty-day public comment period.

The TDAPC has reviewed the proposed increase with respect to the above referenced PSD rule. The TDAPC has made the determination that increasing the high dispersion silica coupling agent usage can be approved if certain conditions are met. A copy of the forms submitted by The Goodyear Tire & Rubber Company, and other materials used by the TDAPC in making this determination, are available for public inspection during normal business hours at the following locations:
